

Features | MODEL:MC-8250RDMT

- Reliable with dual PIR technology;
- With look-down window to avoid blind-corner;
- low-voltage check and status report function;
- Low current consumption;
- Vandal proof.

Wireless Digital PIR Detector

Specifications

Model	MC-8250RDMT
Function	Dual PIR technology
Detection	Dual PIR technology
Detection distance	9m@25°C
Detection angle	110°
Working voltage	3VDC(CR123A lithium battery)
Quiescent Current	≤30 μ A
Emitting current	≤15mA
Installation	height: 1.8m~2.4m(Surface mount)
Working temperature	-10°C ~+50°C
Anti-white light	>8000LUX
Anti-EMI	>30V/m (30MHz~1GHz)
Emitting frequency	433MHz/868MHz
Alarm Indication	LED flashes 2 seconds
