

Wireless Smoke Detector

Specifications

Model	MD-2100R
Battery life	about 2 year
Current	static: 20-40uA, alarm: 20mA(433mhz).
Operating environment	- 5°C ~ 50°C ; humidity: 10% ~90%
Battery low voltage indication	sound once in each 2 hours
Self test indication	red LED turn on then buzzer sound 2 times.
Alarm output indication	red LED turn on 5 seconds then buzzer
Working frequency	433mhz
Working range max	100m(in the open area)
Radiation of sensor max.	4kbq
Working voltage	6v lithium battery (CR123A*2 pcs)
Smog sensitivity	In comply with U1217, 3.2%/feet
Built in siren	95dB/1m
LED jumper	short circuit on , open circuit off

Features | MODEL:MD-2100R

- Ceiling mounting;
- Built-in buzzer to warn people;
- Regular auto testing and reports;
- Auto send low power signal;
- LED indication on/off as required.
