

Wireless Magnetic Door Contact

Specifications

Function	Model	MD-210R
Working voltage		3V(CR123A lithium battery)
Code		28-digit ID, 8 digit function code, 36 digits data code in total
Current consumption		Static state $\leq 5 \mu A$; Alarm: 7-12mA (433MHz) Static state $\leq 5 \mu A$; Alarm: 35-45mA (868MHz)
Magnetic range		1.5cm
Working temperature		-10°C ~ 50°C
Emitting frequency		433MHz/868MHz
Wireless emitting distance		Built-in antenna: 150m(open area)
Dimension		Emitter: 81×32×25mm; Magnetic stripe: 74×13×18mm

Features | MODEL:MD-210R

- Micro-power dedicated CPU;
- Auto status report;
- Adopted unique multi codes;
- Anti-lost report;
- Open door/window indication;
- Vandal proof.
