

Wireless intelligent remote

Specifications

Function	Model	PB-403R
Transmitting distance		100m(open area)
Transmitting frequency		433MHz/868MHz
Coding		28 bits ID, 8 bits function code, 36 bits date code
Voltage:		5.8V-7V, with two CR2032 lithium batteries, working life is about one year
Temperature		-10°C ~+50°C
Size		66.5*31.5*10.5mm
Weight		22g

Features | MODEL:PB-403R

- 6 independent function keys
- For fast arm/disarm, easy and convenient, emergency call, safe and convert
- Wireless electronic control
- Exquisite design, with pictures for key functions
- Low consumption for transmitting, indication for signal output
